## Associate of Science (ASCI)

Cincinnati State offers the Associate of Arts and Associate of Science degrees, which are often called “university parallel degrees” or “transfer degrees,” because they provide the first two years of a bachelor’s degree program. The primary purpose of the Associate of Arts and Associate of Science degrees is to prepare students for transfer to a four-year college or university. Students who earn these degrees and have an overall grade point average of 2.0 or better are given preferential consideration for admission to Ohio public universities.

The Associate of Science degree is for students who desire to pursue a bachelor’s degree by completing the first two years at Cincinnati State in program areas such as:

- Biology
- Chemistry
- Education
- Mathematics
- Meteorology
- Physics
- Pre-Dentistry
- Pre-Medicine
- Pre-Optometry
- Pre-Pharmacy
- Pre-Veterinary Medicine
- Zoology

Students who seek the Associate of Arts or Associate of Science degree need to be familiar with the requirements for the bachelor’s degree at the institution where they intend to complete their studies. Students work with a Cincinnati State faculty advisor to develop a planned curriculum of required and elective courses. This plan should allow a full-time student to transfer to the desired four-year institution at junior status after two years or less. Students who need additional preparation or attend part-time may take longer than two years to complete their degree requirements.

<sup>1</sup> Students must meet with the Co-op Coordinator at least one semester prior to beginning Co-op to discuss options and plan how to complete Co-op credits.

## Electives:

Consult your advisor for help selecting electives.

12

Courses should be chosen to meet the requirements of the institution where you plan to earn your bachelor's degree. Any course in the list of requirements on previous pages may be used as an elective.

*Note: If a student earns more than the required number of credits in any category (for example, by taking two 4-credit math courses), the additional credits will count towards the elective requirement.*
