PSEO Guidelines, Policies, and Procedures

1. The purpose of the PSEO program is to provide high school students who are intellectually and socially capable of performing at the college level an additional educational option. The option is appropriate for high school students whose local school district is not able to offer the course(s) needed to meet students' level of academic performance and for those students who have already completed all high school requirements and are ready to get a head start on college. The program is not intended to replace high school honors or advanced placement classes. Here is a description of the process. By March, the school district notifies students and parents about the PSEO program. Students then inform the public school district of their intent to participate in the PSEO program. Non-public high school students who wish to participate in the PSEO program must contact their high school for details.
2. Only students who meet all of the following criteria are eligible for consideration for the PSEO program at Cincinnati State.
 - a. All students in grades 9, 10, 11, and 12 who wish to enter Cincinnati State for college and/or high school credit must complete the PSEO application and give it to their high school counselor. Dual Enrollment

The PSEO options described above serve high school students who wish to participate in regularly-scheduled college courses at a Cincinnati State campus location. In addition, the College maintains a network of high school Dual Enrollment partners. Dual Enrollment allows qualified high school students to participate in college courses that are offered at the high school location, during the high school academic day. High school partners must make arrangements for Dual Enrollment courses to be offered. Therefore, high school students interested in these opportunities should ask their high school for information.
