

# Information Management Technologies

---

Information Management Technologies offer three degree programs: Administrative Assistant, Legal Assistant and Medical Administrative Assistant. The curricula include technical skill development and courses in business principles and management. Minimum grades of C are required for all technical courses.

## Administrative Assistant (AA)

The Administrative Assistant program leads to an Associate of Applied Business degree. Students develop competencies in office procedures, software applications, communications, accounting skills, organizational skills, supervisory skills, office management, time management, and project management, as well as the "soft" skills employers demand.

## Legal Assistant (LA)

This Associate of Applied Business program prepares students to perform legal administrative duties for law firms, banks, corporations, and savings and loans. The Legal Assistant program develops competencies in word processing, legal terminology, legal office procedures, legal documentation, legal transcription, legal research, time management, and organizational skills. Graduates earn the Paralegal Certificate along with the associate's degree.

## Medical Administrative Assistant (MAA)

The Medical Administrative Assistant program prepares students to perform administrative duties for medical offices and health care facilities. Students develop competencies in medical office procedures, organizational skills, time management, communications, medical terminology, application software, transcription, and medical coding and billing. Graduates earn an Associate of Applied Business degree and can expect to work as administrative assistants or as office managers in a variety of medical office and health care management settings.

Information Management Technologies also offers two certificate programs, in Computer Applications and Virtual Assistant.

## Computer Applications Certificate (CAPC)

The Computer Applications Certificate assists professionals who are seeking career development opportunities while earning college credit, as well as students in any program or major who want to increase employment options by adding to their computer skills. The certificate program builds proficiencies in using Microsoft Office software within a workplace environment. Many of the certificate courses prepare students to take Microsoft Office Support and Expert Specialist certification tests for various Microsoft Office software applications.

## Virtual Assistant Certificate (VAC)

The Virtual Assistant Certificate is designed for individuals seeking entrepreneurial, flexible employment by operating a home office that offers administrative and business support, over the Internet, to companies or professionals. Students pursuing this certificate should be currently employed in a secretarial or office support role, with at least two years of verified experience in the field. In addition, students seeking the Virtual Assistant Certificate should have fluency in keyboarding, computer skills, and communication as well as strong self-motivation skills. This certificate program does not include cooperative education.

## Administrative Assistant (AA)

All degree-seeking students must complete a First Year Experience (FYE) course as part of the first 12 credit hours taken at Cincinnati State.
