

Surgical Technology (ST)

Surgical Technology (ST)

The Surgical Technology program focuses on the scrub role during general and specialty surgical procedures. The surgical technologist provides patient care before, during, and after surgery. Responsibilities include preparing operative equipment and supplies, providing instrumentation during operative procedures, and other intra-operative patient care activities. Surgical technologists also share circulating tasks (responsibilities that may require more interaction with patients) with nurses.

Students develop skills through integrated theory and practice in the classroom and simulated laboratory practice, and through clinical experiences in hospital and/or ambulatory surgery operating rooms.

The program is accredited by The Commission on Accreditation of Allied Health Education Programs (www.caahep.org (<http://www.caahep.org>)) in collaboration with the Accreditation Review on Education in Surgical Technology and Surgical Assisting (ARC/STSA), 6 West Dry Creek Circle, Suite 110, Littleton, CO, 80120-8031, phone: (303) 694-9262, www.arcstsa.org (<http://www.arcstsa.org>).

Upon satisfactory completion of the program curriculum, students are eligible to take the National Examination for Surgical Technologist administered by the National Board of Surgical Technology and Surgical Assisting (NBSTSA) for designation as a Certified Surgical Technologist (CST). A CST may practice in all 50 states.

Surgical Technology First Assistant Certificate (STFAC)

First assistants and surgical assistants provide aid to help surgeons conduct a safe operation with optimal results for the patient. In addition to intra-operative duties, surgical assistants perform pre-operative and post-operative duties to facilitate proper patient care.

The Surgical Technology First Assistant certificate encompasses the basic elements of first assisting. Most of the courses are delivered online. However, some courses include simulated laboratory experiences on campus.

To be admitted to the certificate program, students must have a minimum of an associate's degree from a regionally accredited college or university, with completion of basic college-level science courses within the past seven years. In addition, prospective students must be certified as a Surgical Technologist (CST); must have three years full-time scrub and/or assisting experience within the last seven years; and must provide proof of current CPR Certification for Healthcare Providers, liability insurance, and updated immunizations.

Surgical Technology (ST)

All degree-seeking students must complete a First Year Experience (FYE) course as part of the first 12 credit hours taken at Cincinnati State.

Program prerequisites: ST 100 Introduction to Surgical Technology, BIO 151 Anatomy and Physiology 1, BIO 220 Microbiology, PHY 110 Health Physics, and MCH 101 Medical Terminology 1 (minimum grade C for all). Students seeking admission to the Surgical Technology program must complete specific progression requirements. Students should meet with their academic advisor to discuss progression eligibility and deadlines.

Semester 1		Lec	Lab	Credits
MCH 100	Healthcare Informatics	2	0	2
ST 101	Surgical Foundations and Procedures 1	8	0	8
ST 111	Surgical Principles and Practice 1	1	3	2

STFA Courses

STFA 150 Perioperative Bioscience 3 Credits. 3 Lecture Hours. 0 Lab Hour.

A course on concepts of perioperative bioscience. Topics include: advanced microbiology and pathology, surgical pharmacology, and anesthesia management.

Prerequisites: Admitted to the STFA Certificate Program

STFA 155 Principles of First Assisting 3 Credits. 2 Lecture Hours. 3 Lab Hours.

A course on the history and role of the first assistant. Topics include: performing perioperative functions; moral, ethical, and legal responsibilities; surgical interventions for specific patient groups; complications and surgical emergencies; and career options.

Prerequisites: Admitted to STFA Certificate Program

STFA 161 Surgical Specialties 1**7 Credits. 7 Lecture Hours. 0 Lab Hour.**

A course on the first assistant's role in a variety of surgical procedures. Topics include: general surgery; endoscopic procedures; and gynecological, obstetrical, genitourinary, plastic/reconstructive, otorhinolaryngologic, and pediatric procedures.

Prerequisites: STFA 150, STFA 155 (minimum grade C for both)

STFA 162 Surgical Specialties 2**7 Credits. 7 Lecture Hours. 0 Lab Hour.**

A continuation of STFA 161. Topics include: orthopedic, ophthalmic, neurosurgical, perivascular, thoracic, cardiac, and pediatric surgical procedures.

Prerequisites: STFA 161 (minimum grade C)

STFA 181 First Assisting Clinical 1**2 Credits. 1 Lecture Hour. 12 Lab Hours.**

Students complete an individualized clinical practicum to demonstrate manual and behavioral skills under the preceptorship of a surgeon at a facility of student's choice. Skills application includes: general surgery; and endoscopic, gynecological, obstetrical, genitourinary, plastic/reconstructive, otorhinolaryngologic, and pediatric procedures.

Prerequisites: STFA 150, STFA 155 (minimum grade C for both)

STFA 182 First Assisting Clinical 2**2 Credits. 1 Lecture Hour. 12 Lab Hours.**

A continuation of STFA 181. Students must complete the required number of procedures, under the supervised preceptorship of a surgeon, in any combination of the following surgical specialties: pediatric, orthopedic, ophthalmic, neurosurgical, perivascular, thoracic, and cardiac surgical procedures.

Prerequisites: STFA 181

STFA 198 First Year Special Topics in Surgical Technology First Assisting**1-9 Credits. 0 Lecture Hour. 0 Lab Hour.**

A course on selected topics related to Surgical Technology First Assisting, which gives students opportunities to study information not currently covered in other courses. Grades issued are A, B, C, D, or F.

Prerequisites: None

STFA 199 First Year Independent Project in Surgical Technology First Assisting**1-9 Credits. 0 Lecture Hour. 0 Lab Hour.**

A project related to Surgical Technology First Assisting that is completed by one or more students to meet specific educational goals. Projects must have prior approval and supervision by Surgical Technology First Assisting faculty. Grades issued are Satisfactory or Unsatisfactory.

Prerequisites: Vary by section

STFA 298 Second Year Special Topics in Surgical Technology First Assisting**1-9 Credits. 0 Lecture Hour. 0 Lab Hour.**

A course on selected topics related to Surgical Technology First Assisting, which gives students opportunities to study information not currently covered in other courses. Grades issued are A, B, C, D, or F.

Prerequisites: None

STFA 299 Second Year Independent Project in Surgical Technology First Assisting**1-9 Credits. 0 Lecture Hour. 0 Lab Hour.**

A project related to Surgical Technology First Assisting that is completed by one or more students to meet specific educational goals. Projects must have prior approval and supervision by Surgical Technology First Assisting faculty. Grades issued are Satisfactory or Unsatisfactory.

Prerequisites: Vary by section

ST Courses

ST 100 Introduction to Surgical Technology**2 Credits. 2 Lecture Hours. 0 Lab Hour.**

A course on the history and development of surgical technology. Topics include: the perioperative environment, surgical instrumentation, the surgical technologist's role and attributes for success, professional organizations, and legal terms related to the profession.

Prerequisites: None

ST 101 Surgical Foundations and Procedures 1**8 Credits. 8 Lecture Hours. 0 Lab Hour.**

A course on concepts and skills for surgical technology. Topics include: professional and workplace management; patient care; surgical asepsis and infection control; decontamination, disinfection, and reprocessing methods; instrumentation; sterile storage and distribution; basic pharmacology; anesthesia; specimen care; and surgical supplies and equipment.

Prerequisites: BIO 220, MCH 101, PHY 110, ST 100 (minimum grade C for all), and admitted to ST Program

ST 102 Surgical Foundations and Procedures 2

8 Credits. 8 Lecture Hours. 0 Lab Hour.

A continuation of ST 101. Topics include: wound classifications; wound healing; tissue approximation; sutures; abdominal incisions; and procedural steps for abdominal wall hernia repairs, gastrointestinal and accessory organs, breast, gynecological, obstetrical, and plastic/reconstructive surgery.

Prerequisites: BIO 152, ST 101, (minimum grade C for both), ST 111

ST 111 Surgical Principles and Practice 1

2 Credits. 1 Lecture Hour. 3 Lab Hours.

A course that prepares students to perform assistant circulating skills through activities conducted in a simulated operating room setting on campus.

Prerequisites: ST 100 (minimum grade of C), and admitted to Surgical Technology program

ST 112 Surgical Principles and Practice 2

2 Credits. 1 Lecture Hour. 3 Lab Hours.

A course that prepares students to perform first scrub role skills through activities conducted in a simulated operating room setting on campus.

Prerequisites: ST 101 (minimum grade C), ST 111

ST 181 Surgical Technology Clinical Skills Application 1

3 Credits. 1 Lecture Hour. 5 Lab Hours.

Students participate in uncompensated clinical experiences performing beginning-level assistant circulating skills in the operating room of an affiliate hospital, and attend a weekly seminar.

Prerequisites: ST 101 (minimum grade C), ST 111

ST 182 Surgical Technology Clinical Skills Application 2

2 Credits. 0 Lecture Hour. 6 Lab Hours.

A continuation of ST 181. Students perform uncompensated beginning-level scrub skills during assigned operative procedures at an affiliate hospital. Students' skills in relation to future employment are evaluated.

Prerequisites: ST 102 (minimum grade C), ST 112, ST 181

ST 198 First Year Special Topics in Surgical Technology

1-9 Credits. 0 Lecture Hour. 0 Lab Hour.

A course on selected topics related to Surgical Technology, which gives students opportunities to study information not currently covered in other courses. Grades issued are A, B, C, D, or F.

Prerequisites: None

ST 199 First Year Independent Project in Surgical Technology

1-9 Credits. 0 Lecture Hour. 0 Lab Hour.

A project related to Surgical Technology that is completed by one or more students to meet specific educational goals. Projects must have prior approval and supervision by Surgical Technology faculty. Grades issued are Satisfactory or Unsatisfactory.

Prerequisites: Vary by section

ST 201 Advanced Surgical Procedures 1

5 Credits. 5 Lecture Hours. 0 Lab Hour.

A course on specialized surgical procedures. Topics include: otorhinolaryngology procedures, including head/neck and oral maxillary; and ophthalmic, genitourinary, and orthopedic procedures.

Prerequisites: ST 102 (minimum grade C), ST 112, ST 181

ST 202 Advanced Surgical Procedures 2

5 Credits. 5 Lecture Hours. 0 Lab Hour.

A continuation of ST 201. Topics include: perivascular, thoracic, cardiac, neurology, transplant surgery, and pediatric procedures.

Prerequisites: ST 201 (minimum grade C), ST 182

ST 281 Surgical Technology Clinical Directed Practice 1

6 Credits. 1 Lecture Hour. 30 Lab Hours.

Students demonstrate competency in scrub skills related to general and specialty operative procedures at an assigned affiliate hospital, and attend a weekly seminar on campus.

Prerequisites: ST 201 (minimum grade C), ST 182

ST 282 Surgical Technology Clinical Directed Practice 2

6 Credits. 1 Lecture Hour. 30 Lab Hours.

A continuation of ST 281. Students demonstrate competency in scrub skills while performing assigned procedures at an affiliate hospital, and attend a weekly seminar on campus. Students must complete the NBSTSA certification examination as a course requirement.

Prerequisites: ST 202 (minimum grade C), ST 281

ST 298 Second Year Special Topics in Surgical Technology

1-9 Credits. 0 Lecture Hour. 0 Lab Hour.

A course on selected topics related to Surgical Technology, which gives students opportunities to study information not currently covered in other courses. Grades issued are A, B, C, D, or F.

Prerequisites: None

ST 299 Second Year Independent Project in Surgical Technology

1-9 Credits. 0 Lecture Hour. 0 Lab Hour.

A project related to Surgical Technology that is completed by one or more students to meet specific educational goals. Projects must have prior approval and supervision by Surgical Technology faculty. Grades issued are Satisfactory or Unsatisfactory.

Prerequisites: Vary by section
