Business Management (BM)

Business Management (BM)

The Business Management degree program combines sound business training with on-the-job experience. Classroom experience includes understanding contemporary practices in management, marketing, human resources, accounting, and organizational development. Students also learn about effective use of time, money, materials, and people to improve business results.

Through cooperative education work experience, students gain valuable insight and "how to" experience in assessing and solving management challenges that businesses deal with every day.

Graduates earn an Associate of Applied Business degree.

For more information, please contact the Business Technologies Division at (513) 569-1620.

To apply for this program at Cincinnati State, visit our Admissions Page (http://www.cincinnatistate.edu/academics/admission)
