

Audio/Video Production (AVP)

Audio/Video Production (AVP)

The Audio/Video Production program at Cincinnati State prepares students to create and manipulate digital audio, video, and graphic images.

Career destinations for AVP graduates include broadcast and cable television and other entertainment industries; Web and multimedia development companies; and media production departments in commercial, corporate, and industrial settings.

A significant number of courses required for the degree are scheduled between 8 a.m. and 5 p.m., Monday through Friday. Some of the required courses also are offered in the evening or on weekends.

For students seeking the Audio/Video Production degree, owning a laptop computer and a subscription to cloud-based software used in classes is strongly recommended. The AVP program chair can provide details and program-specific requirements.

Graduates earn an Associate of Applied Science degree. Job titles for graduates include video editor, sound designer, videographer, audio/video specialist, compositing artist, motion graphics designer, or production assistant.

For more information, please contact the Center for Innovative Technologies at (513) 569-1743.
