Engineering Technology Transfer Certificate (ETTC)

Note: As of June 1, 2020, this certificate is not eligible for financial aid. For the most recent information, contact the Office of Financial Aid.

The Engineering Technology Transfer Certificate is designed for students who plan to transfer to a bachelor's degree program in an engineering technology field.

Students seeking this certificate must also be enrolled in (or previously completed) an Associate of Applied Science (AAS) degree in an engineering technology field such as Civil Engineering Technology, Electrical Engineering Technology, Electro-Mechanical Engineering Technology, Environmental Engineering Technology, or Mechanical Engineering Technology.

The coursework included in the certificate supplements coursework required for the AAS degree and provides an additional year of transferable credit toward the bachelor's degree program of choice.

Students complete the Ohio Transfer Module as part of the Engineering Technology Transfer Certificate.

Certificate-seeking students work closely with their academic advisor to ensure that courses selected align with the requirements of the institution where the student plans to earn a bachelor's degree.

For more information, please contact the Engineering and Information Technologies Division at (513) 569-1743.
