

Engineering and Information Technologies Division

Division Office: Main Building Room 210, Clifton Campus

Division Phone Number: (513) 569-1743

Dean: Bob Niels

Associate Dean: Kim McMillan

The Engineering and Information Technologies Division provides Cincinnati State's **associate's degree programs and majors** in engineering technologies, information technologies, aviation maintenance, and multimedia fields. The division offers a number of associate's degrees and **certificate programs** that prepare students for a career in a variety of technical fields or a possible pathway to a bachelor's degree.

The division also offers a **Bachelor of Applied Science** degree in Land Surveying.

Cincinnati State has been recognized nationally as one of the top schools in Ohio for engineering-related associate's degrees.

The mission of the Engineering and Information Technologies Division is to equip students with the technical skills needed to succeed and prosper in the workforce, while also providing the foundation for continuing educational growth.

The academic programs within the Engineering and Information Technologies Division are organized into the following departments:

- Aviation Maintenance Technologies (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/aviationmaintenancetechnologies/>)
- Chemical and Environmental Engineering Technologies (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/chemicalandenvironmentalengineeringtechnologies/>)
- Civil Engineering Technologies (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/civilengineeringtechnologies/>)
- Computer Programming and Database Management (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/computerprogramminganddatabasemanagement/>)
- Electrical Engineering Technologies (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/electricalengineeringtechnologies/>)
- Electro-Mechanical Engineering Technologies (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/electromechanicalengineeringtechnologies/>)

- Land Surveying (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/landsurveying/>)
- Mechanical Engineering Technologies (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/mechanicalengineeringtechnologies/>)
- Multimedia Information Design (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/multimediainformationdesign/>)
- Networking and Support Systems (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/networkingandsupportsystems/>)
- Pre-Engineering (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/preengineering/>)
- Welding (<https://catalog.cincinnati.edu/academicdivisionsanddegreeampcertificateprograms/engineeringandinformationtechnologiesdivision/welding/>)

All of the degree programs offered by the Engineering and Information Technologies Division feature:

- Faculty with professional experience in their areas of instruction.
- Technical coursework that blends basic theory (including skills in mathematics and science, as applicable) with extensive hands-on laboratory practice.
- Foundation academic skills courses in written communication; arts and humanities; and natural, behavioral, or social sciences.
- Ease of transfer from an associate's degree to a number of bachelor's degree programs.
- Cooperative education work experience. The close ties with industry created by the cooperative education component ensure all programs remain technically current, and provide students with practical workplace knowledge and experience prior to graduation.

Accreditations:

- The Bachelor of Applied Science degree program in Land Surveying is accredited by the Applied and Natural Science Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET). Website: www.abet.org (<https://www.abet.org/>).
- The Associate of Applied Science degree program in Surveying and Mapping is accredited by the Applied and Natural Science Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET). Website: www.abet.org (<https://www.abet.org/>).
- The Civil Engineering Technology – Construction Management option is accredited by the American Council for Construction Education (ACCE). Address: 1717 North Loop 1604 East, Suite 320, San Antonio, TX 78232-1570. Phone: (210) 495-6161. Website: <http://www.acce-hq.org>. (<http://www.acce-hq.org>)

- The Aviation Maintenance Technology associate's degree program and related certificate programs are approved by the Federal Aviation Administration. Technical coursework is offered primarily at the Cincinnati State West campus in Harrison, Ohio.

The Engineering and Information Technologies Division collaborates with the College's Workforce Development Center in offering the Applied Technology Specialist degree, which allows students with military experience, Career Center certificates, or technical work history to earn college credit for past training or experience.

The Engineering and Information Technologies Division also offers a number of certificate programs that address specific technical skills. Certificates have fewer course requirements than an associate's degree, and typically can be completed in a year or less.

Cooperative Education

The cooperative education experience is a cornerstone of the educational process in the Engineering and Information Technologies Division.

All students enrolled in associate's or bachelor's degree programs are required to participate in cooperative education. Most students complete this requirement through on-site cooperative education assignments. Students may earn credit through full-time or part-time work assignments, depending on job availability.

In a few academic programs where competition for entry-level assignments is particularly strong, students may have opportunities to meet requirements for experiential learning by participating in unpaid internships.

Students may also be able to substitute appropriate academic courses or previous related work experience for cooperative education employment, with prior approval from the appropriate co-op coordinator and program chair.

For eligibility requirements, co-op registration policies, and other issues related to cooperative education, please refer to the Cooperative Education Program (<http://catalog.cincinnati.state.edu/academicpoliciesandprocedures/cooperativeeducationprogrampolicies/>) section of this Catalog.

College Orientation

An online New Student Orientation program is available for all Cincinnati State students. For more information visit the New Student Orientation (<https://www.cincinnati.state.edu/new-student-orientation/>) page on the College website.

To prepare for success in college, degree-seeking students are required to complete a college First Year Experience (FYE) course within the first 12 credit hours taken at Cincinnati State. For more information about the FYE course offerings, see the First Year Experience Requirement (<https://catalog.cincinnati.state.edu/academicdivisionsanddegreeampcertificateprograms/collegeorientationrequirement/>) section of this Catalog.

Entrance Competencies

To ensure success in academic studies in Engineering and Information Technologies, entering students must meet established academic levels in mathematics, written communication skills, and reading comprehension. As part of the admission process, entering students meet with an academic advisor who may identify academic

foundations-level classes to help the student reach needed levels. Preparatory classes are available year-round, and are designed to increase students' opportunities for success in their courses.

Students entering most academic programs in Engineering and Information Technologies must demonstrate competence with commonly-used software applications and with basic internet operations. Students may be asked to demonstrate these competencies through standardized skills assessment tests or by completing prerequisite courses if necessary. Program advisors assist students in determining whether they meet minimum competencies.

Full-time students who follow the published sequence of courses can complete an associate's degree program in two years.

Transfer to Baccalaureate Programs

The Engineering and Information Technologies Division offers a Pre-Engineering program. Graduates earn an Associate of Science degree and are prepared to enter a baccalaureate program in an engineering science field.

Many of the Associate of Applied Science degree programs offered by the Engineering and Information Technologies Division have established articulation agreements to ease transfer of credits earned at Cincinnati State to baccalaureate programs at various colleges and universities. Agreements are in place with the University of Cincinnati, Miami University, Northern Kentucky University, Wright State University, Western Governors University, and Wilmington College, among others. These agreements vary in content. Interested students should meet with their program advisor as early as possible to review the details of possible transfer arrangements.

Ohio Transfer 36

The Ohio Department of Higher Education developed the Ohio Transfer 36 to facilitate transfer of credits from one Ohio public college or university to another. The Ohio Transfer 36 contains 36 to 40 semester hours of course credits in the areas of communication, mathematics, arts and humanities, social and behavioral sciences, and natural and physical sciences. A completed Ohio Transfer 36 at one college or university automatically meets the requirements for the Ohio Transfer 36 at another college or university once the student is admitted. For additional information, see the Transferring College Credit (<https://catalog.cincinnati.state.edu/academicpoliciesandprocedures/creditransfer/collegededitransfer/>) and the Ohio Transfer 36 (<https://catalog.cincinnati.state.edu/academicdivisionsanddegreeampcertificateprograms/transfermodule/>) sections of this Catalog.

Associate's degree programs in the Engineering and Information Technologies Division contain in their curricula many of the required courses for the Cincinnati State Transfer 36. The Pre-Engineering degree contains the entire Ohio Transfer 36. Students who wish to complete the Ohio Transfer 36 should schedule the additional courses at their convenience.

Students who transfer to an Ohio public university for baccalaureate degrees will find that the Cincinnati State Associate of Applied Science degree, and other associate's degrees, combined with a Ohio Transfer 36 showing grades of C or higher, receives preferential consideration at the receiving institution. Additionally, transfer is streamlined for graduates of some Engineering and Information Technologies programs by the articulation agreements described above.
