## Associate of Science (ASCI)

The Associate of Science degree is designed for students who plan to transfer into a bachelor's degree program immediately after completing their Cincinnati State degree.

Working closely with an academic advisor, students customize the curriculum to fit the school and the bachelor's degree program they plan to complete. Students can prepare for bachelor's degree programs in Biology, Chemistry, Physics, Mathematics, and Pre-Professional Sciences, such as Pre-Medicine, Pre-Pharmacy, Pre-Dentistry, and Pre-Veterinary Medicine.

The Associate of Science degree includes the Ohio Transfer 36 (formerly Ohio Transfer Module), which is a core set of general education courses, along with directed electives that allow students to complete the first two years of a four-year degree in a natural sciences or physical sciences field.

Students in the Associate of Science program participate in cooperative education, which offers opportunities for internship or employment in a career-related field. The co-op or internship placement provides practical training and enriches the academic experience.

For more information, please contact the Humanities and Sciences Division at (513) 569-1700.

To apply for this program at Cincinnati State, visit the Admissions (<http://www.cincinnati.edu/academics/admission/>) section of the College website.
