

Electro-Mechanical Engineering Technologies

Electro-Mechanical Engineering Technologies programs prepare graduates, through study of electronics and technical systems, to work in an industrial setting where automation, robotics, controls, and systems integration are used.

Electro-Mechanical Engineering Technologies include three associate's degree programs and two certificates:

- **Electro-Mechanical Engineering Technology (EMET)**
- **Electro-Mechanical Engineering Technology - Energy Major (EMETE)**
- **Electro-Mechanical Engineering Technology - Laser Major (EMETL)**
- **Building Automation Systems Certificate (BASC)**
- **Laser Certificate (EMETLC)**

These programs address the needs of growing industries in Ohio and the region, including manufacturing of photovoltaic electric panels, wind turbines, and fuel cells; installing and servicing photovoltaic and wind turbine systems; assisting energy efficiency companies and consultants; and using lasers and electro-optics systems in automated manufacturing and research environments.

For more information, please contact the Engineering and Information Technologies Division at (513) 569-1743.
