Audio/Video Production (AVP)

The Audio/Video Production program at Cincinnati State prepares students to create and manipulate digital audio, video, and graphic images. Career destinations for AVP graduates include broadcast and cable television and other entertainment industries; web and multimedia development companies; and media production departments in commercial, corporate, and industrial settings.

A significant number of courses required for the degree are scheduled between 8 a.m. and 5 p.m., Monday through Friday. Some of the required courses also are offered in the evening or on weekends.

Students entering the Audio/Video Production program are expected to own a laptop computer and a subscription to cloud-based software used in classes. Additional information is available on the Audio/Video Production page of the College website or from the program chair.

Graduates earn an Associate of Applied Science degree. Job titles for graduates include video editor, sound designer, videographer, audio/video specialist, compositing artist, motion graphics designer, or production assistant.

For more information, please contact the Engineering and Information Technologies Division at (513) 569-1743.

To apply for this program at Cincinnati State, visit the Admissions (<http://www.cincinnati.edu/academics/admission/>) section of the College website.

Some courses are offered in alternative versions identified with a letter after the course number-- for example, ENG 101 and ENG 101A.

- This curriculum displays only course numbers without the added letter.
- The alternative version, when available, meets the requirements of the course version without the added letter.

The letters G, B, and T (displayed after course titles or elective descriptions) identify types of courses required by the Ohio Department of Higher Education as part of an associate's degree curriculum.

G = General Education course in this curriculum

B = Basic Skills course in this curriculum

T = Technical course in this curriculum

Audio/Video Production (AVP)

- Understand the technical operation of equipment and software across multiple disciplines, to create media.
- Create media as a member of a production team.
- Create the most efficient path for project completion.
